

VACANCY Integration Developer (Temporary)

The Barbados Light & Power Company Limited is inviting applications from suitably qualified individuals to fill the temporary position of **Integration Developer**. Reporting to the Integration Architect, the Integration Developer will be assigned to focus on the development, testing and implementation of integration components to support the tasks required for the successful implementation of various projects.

The successful candidate will be required to:

- Configure and maintain integrations between customer-facing forms and internal service management platforms.
- Assist in the development and implementation of customer messaging workflows and service automation.
- Conduct user acceptance testing (UAT) and system integration testing (SIT) for customer service tools and core business systems.
- Test and validate LLM solutions used for customer and business support processes.
- Assist with documenting integration workflows for ERP-related initiatives.
- Support development and configuration activities for ERP integration components.
- Assist with documenting and supporting integration workflows for enterprise data platforms.

The ideal candidate should possess:

- Bachelor's degree in Computer Science, Information Technology or any related discipline.
- Basic understanding of software development principles and methodologies.
- Experience with programming languages such as Java, Python or SQL

Applications

Suitably qualified candidates should submit their applications via email to blpc.careers@blpc.com.bb or via post addressed to:
