

VACANCY

Senior Electrical Technician

The Barbados Light & Power Company Limited (BLPC) is seeking applications from suitably qualified applicants to fill the position of **Senior Electrical Technician**. Reporting to the Maintenance Supervisor, the successful candidate installs, troubleshoots, tests and maintains electrical, electromechanical, electronic, pneumatic and computerized systems for diesel engines, boilers, incinerators, steam and gas turbines, auxiliary equipment, renewable generating units and battery storage devices.

In this role the successful candidate will be required to:

- Lead electrical maintenance personnel.
- Inspect and maintain electrical and instrumentation equipment on generating units and auxiliary systems.
- Troubleshoot and repair faults on all electrical, electromechanical, electronic and pneumatic and computerized systems
- Test and calibrate protective relays.
- Perform oil filtering on power transformers.
- Repair and calibrate gauges.
- Check and calibrate protective devices and alarms
- Install, test and assist in commissioning new equipment including control systems, electrical/electronic equipment and instrumentation.
- Clean and inspect generator alternators and motors, transformers and filters
- Maintain high voltage generator breakers, motors and motor control switchgear, batteries and battery charging equipment, transformers and tap changers.
- Service and repair electrical components on governors.
- Maintain lighting, electrical and communication equipment.
- Isolate and earth switchgear and other equipment.
- Varnish and paint electrical and associated equipment.
- Recover and store useful components.
- Handle oils and cleaning liquids and associated equipment.
- Assist with training/orientation of employees.
- Assist with Plant tours.

Qualifications and Experience

- Completion of the Ordinary Technician's Diploma (OTD) or an Associate Degree in Electrical Engineering, or City & Guilds Electrical Maintenance Parts 1 and 2 or an equivalent qualification
- At least three (3) years of experience in an industrial environment

The successful candidate will be required to complete a structured programme of training, determined by an assessment of the current skill level, to achieve full competence in the role.

Remuneration

In return, we are offering an attractive compensation package, including Group Life Insurance, Medical Coverage and Group Pension.
